Thanks! I did see an invitation from Joe Goffman. I didn't know Diana was invited. I will give her a heads up.

Thanks for the update.

Subject: Meeting tomorrow with OIG and OAR and ROs re: the Adm. IG response ltr
Importance: High

I am on a call right now with OAQPS on EtO and Mike Koerber mentioned a meeting that Diana and you are invited to participate in discussing the IG's reaction to the EPA response to their request for reconsideration of the dispute resolution for EtO outreach. If you plan to be on the call tomorrow, you have the letter (that we are still not allowed to send to our states) and you know we have begun to talk to our states (**WV** for sure) about finishing additional analysis and planning for meetings with local officials, communities, facilities, WVDEP. For **PA**—I have gotten updated information on Braun stack test for their new control (they have achieved greater than 99.9% emission reduction). Next step is to talk to PADEP about planning for public webinars on the yet to be proposed revised commercial sterilizer MACT. For **DNREC**, we have let them take the lead, but we need to discuss with them the portion on EJ and possible actions to reduce EtO and other emissions—we have not yet started to look at that.

Alice
